

TESTIMONIAL FOR CONNECT2ADVERTISING

I have used Connect2Advertising for a number of vacancies and have found that this service has helped streamline our recruitment process, enabling us to provide a better service to potential candidates, as well as allowing me to utilise my time more effectively.

By placing the adverts on a number of good quality job boards at reduced cost there is an immediate tangible cost saving, however this is more than doubled in the time saving afforded by Connect2Advertising writing the advert from a provided job role, and by responding to all candidates before providing us with the CV's, so I only needed to contact those selected for interview.

Each time I have used Connect2Advertising it has been a success, and has saved our business time and money. Throughout the process they have always been professional and helpful, and always a call away if I require any extra assistance.

I would highly recommend any business to use this service as an alternative to advertising directly or using a recruitment agency.

Yours Sincerely

Joanna Hart
Group HR Manager
